

1.1021.0.0B

Central Controller H21B

For

- Controlling simple point-to-point systems H21

Characteristics

- The integrated power supply feeds the entire system and is sufficient for up to 500 m cable

Integrated

- Control unit
- Timer function 2 – 270 seconds as total transport time control
- Two blower outputs for 24 V interface contactor
- Two blower relays for single-phase blowers up to 2.4 kW
- One relays output for central brake
- One power cable with SCHUKO plug
- Four fuses:
 - One for power input
 - Three for power outputs for two blowers and one brake

Input voltage

110 or 240 VAC

Housing

Protection class: Ip66

Dimensions: 270 mm (h) × 290 mm (w) × 170 mm (d)

Weight: 2.3 kg

Option

- 110 VAC version with US-plug
